Business. Transformed.

What do 20 of Fortune's top 100 companies all have in common? They all turn to ProSys to design and implement technology solutions to advance their business objectives. From education to healthcare, from financial services to communications ProSys customers are among the most admired and innovative public and private companies in the world.

Founded in 1997, with more than $500M in annual sales, the same entrepreneurial spirit and solid technology partnerships upon which we were founded still fuel every customer engagement. From deep within the data center to the outer most edges of the organization, ProSys improves performance and ROI of legacy systems and enables game-changing business performance through the application of new technologies.

We Know Technology. We Understand Business.

What sets ProSys apart is the way we gain and integrate understanding of our customer's business goals, challenges and opportunities into our solution design process. This deep understanding sharpens our focus, guides our selections and yields superior results for our clients.

From in-depth assessment, design, and deployment services, to complete asset procurement, integration and management services, ProSys IT solutions align technology, insight, and resources across a broad range of commercial and enterprise business applications.

Creating value throughout the technology lifecycle

Enterprise Perspective. Solutions-Driven Approach.

We keep our finger on the pulse of evolving currents in business and IT and we invest heavily in building the capabilities, expertise and relationships required to design and create lasting competitive advantages for our customers. ProSys organizes our Technology Solutions around three key areas: Data Center, Collaboration and Mobility/Networking. These practices are supported by cloud, security and professional service experts spanning all practices.

Data Center

› Virtualization/VDI
› Data Center Consolidation
› Unified Network Fabric
› Power and Cooling
› Space
› 10G Switching Upgrades
› WAN Optimization
› Assessments

Collaboration

› Unified Communications
› Voice & Video Conference
› Web Collaboration E-mail, IM & Presence
› Contact Center
› Assessment and Health Checks

Mobility & Network

› Mobile Workforce
› Compliance
› Mobile Device Management
› Securing the Data Center
› Securing the Cloud
› End Point Device Security
› Assessment and Health Checks

Resources in Motion. Best-in-Class Tools and Methods.

ProSys is more than a technology provider. ProSys is about the people who build the solutions. It is our expertise and depth of knowledge that sets us apart. Annually, we invest thousands of staff hours to expand our skills, knowledge and certifications to match the pace and innovation of our diverse customer base. Working with you, we put these distinctive and integrated resources in motion from day one developing collaborative business and technology solutions that take you from where you are to where you want to be.
