What Our Cisco Relationship Means to You

Our close relationship enables us to design and deploy unique solutions — often well before they are available from other providers. As a national Cisco Gold Certified Partner, ProSys is among the very first companies to be informed of new Cisco technologies, which we promptly share with customers to optimize their technology and businesses. In addition, we have trained our team in Cisco's proven Lifecycle Services methodologies and processes for successfully delivering and supporting Cisco solutions. This approach helps ensure fulfillment of business and technical requirements through all phases of the network lifecycle.

Solutions-Driven Approach

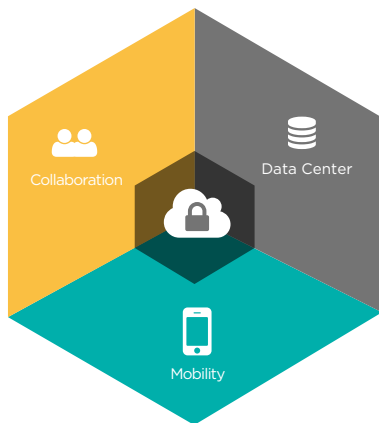

We help create lasting competitive advantages for our customers, as our technology solutions focus on three key areas: Data Center, Collaboration and Mobility/Networking, supported by cloud, security and professional service experts spanning all practices.

Collaboration

- > Unified Communications
- > Voice & Video Conference
- > Web Collaboration E-mail, IM & Presence
- > Contact Center
- > Assessment and Health Checks

Data Center

- > Virtualization/VDI
- > Data Center Consolidation
- > Unified Network Fabric
- > Power and Cooling
- > Space
- > 10G Switching Upgrades
- > WAN Optimization
- > Assessments

Mobility & Network

- > Mobile Workforce
- > Compliance
- > Mobile Device Management
- > Securing the Data Center
- > Securing the Cloud
- > End Point Device Security
- > Assessment and Health Checks

Recognized Excellence

ProSys delivers the most advanced IT innovations available and remains a trusted technology advisor as your business grows and evolves. We also consistently receive acknowledgement from our partners for high levels of Customer Satisfaction Excellence. We'll work with you to understand your operational and technology needs, and deliver solutions that help you accelerate growth and profitability, streamline operations and costs, and stay in front of the latest technologies.

ProSys has met the rigorous Cisco certified personnel levels in order to hold the following Cisco certifications:
